

Red & White Services Fleet List 1930-1975

1. Single Deck Buses

1.32 1957-66 Bristol MW

The Bristol MW (Medium Weight) was introduced in 1957 and was in production until 1967. The MWs had a separate chassis and were supplied with either Gardner 5HLW or 6HLW engines. Red & White purchased 151 MWs with E.C.W B45F bodywork between 1957 and 1966, the first 16 having the less powerful 5HLW engines. U157 was the first Bristol MW to be completed in July 1957. Another of the initial 1957 batch was sold to Red & White in 1966 (U1563) after being used at Bristol as a development vehicle. This was fitted with a different destination box and side trim to the other MWs in the fleet. The MW body design remained largely unchanged throughout the period although the 1957 and 1958 deliveries had upright rear bodywork in contrast to the more rounded style on the later deliveries. The 1964 deliveries were also fitted with Cave-Brown-Cave heating systems which resulted in a revised front end with a different grille arrangement. The 1957 and 1958 vehicles were finished in red with white window surrounds except the first MW RAX 266 which had mouldings for an under window band. The later deliveries were finished in the standard Tilling livery of red with a cream band under the windows.

Fleet No.	Renumbered	Regist'n	New	Chassis	Body	Notes	Out
U157		RAX 266	8/1957	Bristol MW5G 135.007	E.C.W. B45F		1/1973

The chassis of 228 JAX (U1563) was built in 1957 and used by Bristol as a development vehicle until 1963. A new body was fitted in 1964 and the vehicle was acquired by Red & White. AAX 18C (U1263) was rebodied after an accident in 1972 with the body from withdrawn U1563 and renumbered U1563. "Out" dates from April 1978 are from National Welsh.

Red & White Services Fleet List 1930-1975

RAX 266 (U157) was the first Bristol MW to be completed. The livery differed from the other 1957-58 deliveries in having a broad white or cream band under the windows.

MW5G SAX 768 (U257) at Bulwark on 8th March 1972 shortly before transfer to South Wales Transport. The 1957 MWs had the less powerful 5HLW engine. All the 1957-58 MWs except RAX 266 were painted in the red with white window surround livery. (Mike Street)

A pair of 1958 MW6Gs showing the upright rear of TWO 72 in contrast to the more rounded rear of the later MWs.

1958 MWs at Aberdare on 15th April 1973. TWO 72 (U858) is in original livery and TWO 78 (U1458) has been repainted in NBC livery with a white waistband and the early logo in white on a red background. (Mike Street)

Red & White Services Fleet List 1930-1975

Rear ends of the later MWs exemplified by AAX 18C (U1263) and AAX 20C (U1463) at Barry Island on 2nd June 1968. AAX 18C was in an accident in 1972 which led to rebodging with the body from withdrawn 228 JAX. (Mike Street)

MW6G 564 HWO (U263) at Abergavenny on 13th July 1977 in NBC livery with the later blue and red logo on a white background. It was renumbered U3663 in 1975. This batch had the Cave-Brown-Cave heating system with the radiator grille just below the windscreen. (Mike Street)

The second MW to be built was retained by Bristol as a test vehicle and was fitted with a B45F body and sold to Red & White in 1963 as 228 JAX (U1563). This had a different style destination box and side trim from the other Red & White MWs.

AAX 18C (U1563) at Tredegar after being rebodged with the body from withdrawn 228 JAX. (Andrew Mann)

Red & White Services Fleet List 1930-1975

The last Red & White MW to be delivered JAX 117E (U1766) which later became a service vehicle with National Welsh (David Little)

1965 MW6G DAX 627C (U2465) with later sloping style fleet name. (David Little)
